

EY Resource

Look at the pictures and discuss the information all about trees.

Lots of trees are cut down every year.

All about trees

Lots of animals live in trees and find their food there.

What animals can you think of that live in trees?  
What kind of food do trees make for some of these animals?

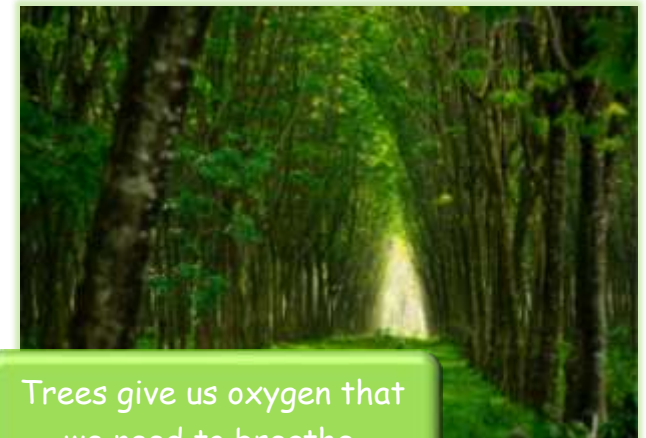

What do you think would happen if we kept cutting down trees and didn't plant new ones?

Look at some of these things that are made from trees.

Can you think of anything you have at home that is made from wood?

Trees give us oxygen that we need to breathe.
